

CHICAGO PNEUMATIC AIR SCRIBE CP-9361

Original CHICAGO Pneumatic Air Scribe Engraving Pen # CP-9361, Engraving Tool.

- This tool is extremely lightweight and easy to use.
- An adjustment dial on the top of the CHICAGO pneumatic cp9361 permits you to select the appropriate power level for your application.
- Air consumption is extremely low at 1 CFM, and that means your compressor won't be struggling to keep up.
- Simply connect a compressed air source to this tool via the 8 foot filtered air hose that is included and you are ready to work.
- Frequency adjustment knob (max 13,500 blows per minute).
- An in-line lubricator is recommended to keep your tool working flawlessly and reduce servicing requirement.
- For engraving, simply use the CP9361 air scribe as it is supplied.
- The ball point carbide stylus will write on numerous surfaces with the ease of a ball point pen.
- Works great on metal, wood, plastic, glass, stone, and more.
- This configuration is great for marking tools, parts, and more.
- The CP9361 will write on materials up to 64 RC hardness.
- To use the CP9361 air scribe as an air chisel, simply swap the ball point carbide stylus with the optional chisel tip (not included).
- Fossil preparation and dental mold making are two very popular uses for the CP9361 with its chisel tip (not included).
- Includes: Includes P043886 air supply hose.
- Includes P056381 filter.
- Made in UK
